MODIFIED CELLULOSE DRESSINGS WITH SILVER

Antibacterial. Gel forming fibres with added silver nanoparticles through novel technology. Strong and easy to remove.

KEY FEATURES:

- High absorbency
- High dressing strength and integrity¹
- Enhanced conformability
- Sustained antibacterial activity²
- Safe, no transfer through blood/brain barrier³
- No transfer into organs⁴
- Performs better than other alternatives in wound healing studies⁵
- Colour stable, no skin staining
- Reduced shrinkage⁶
- Gelling fibres

INDICATIONS:

- Moderately and highly exuding wounds
- Superficial or deep wounds

Such as:

- Partial thickness burns
- Leg ulcers, pressure ulcers and diabetic ulcers
- Surgical wounds
- Traumatic wounds

Types of bacteria this dressing is effective against:

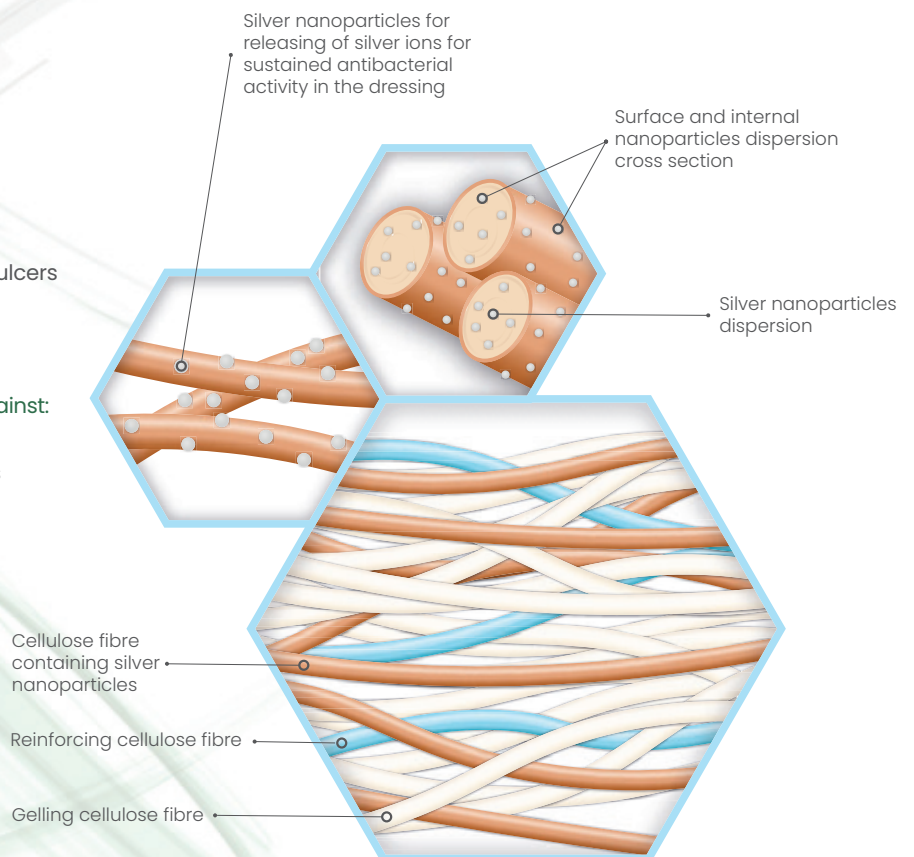

Gram positive and negative bacteria, such as E. Coli, Staphylococcus haemolyticus and MRSA
